Aug 2020

#blockchain #dht #messenger #mobile-mining #server-less #unblock-able #uncensored #permission-less #p2c #pot #decentralized

A blockchain messenger brings freedom of information and fair compensation

- “Like” Telegram or WhatsApp with a *bit* more ...
 - Blockchain coins: each community issues FIXED 10 million coins, through which members make uncensored trades.
 - Server-less and permission-less platform: phones form up digital network independent from any central.
 - Parallelism: millions of community blockchains independent from TAU.

Each community has value.

Discovering social value through coins circulation

- Any group of digitally connected people has value.
- Non-inflatable crypto-coins will discover such potential through exchange.
- The more members join, the higher coin value is.
- When a commonwealth created, better content and service evolves.

Technology gap

Missing server-less, anti-spam and permission-less high-scaling communication technology

- “Big Tech”, such as Amazon, Uber and YouTube, are centralized with **deletion** power **without** check and balance.
- Servers block data transparency and community independence.
- Low scalability of crypto technologies ranging from BTC to EOS are not feasible for global consumer use.

TAU enables a server-less, permission-less, high scaling, mobile mining parallel blockchains technology.

- Communication is at the core for digital applications.
- TAU innovation
 - Distributed Hash Table - TAU DHT
 - Peer to Consensus - Proof of Transaction, POT, as blockchain consensus to regulate spam and hacking
 - Full mobile device mining and networking
 - $O(\log N)$ level searching algorithm through hash-link and skip-list.

Team and privacy

Due to nature of the innovation, we do not disclose team members.

- Technology skills
 - Data and cryptographic processing
 - Telecom and mobile phone expertise
 - Blockchain consensus and algorithm research
 - Java, c++ and android dev
- Business experiences
 - NYSE and Nasdaq listed technology companies founder
 - Committed long term mindset
 - 50 global telegram groups administrators with quarter million users registration
- All source code is open and free, except for the ONE TAU genesis secreete key.
