Sept 2020

TAU Cambridge Ltd

Cambridge Science Park, UK

#blockchain #dht #messenger #mobile-mining #server-less #unblock-able #uncensored #permission-less #p2c #pot #decentralized

The problem: “Big Techs” control digital community.

- Over-taxing on profits generated in digital economy
- Controlling the information and opportunities
- Abusing the deletion power over individuals' content

The rebellion: a server-less messenger begins freedom of information and reward to work and passion.

- “Like” Telegram or WhatsApp with more ...
 - Server-less and permission-less: modern phones with proven libtorrent technology form up network independent from any central to support **free** uncensored communication.
 - Blockchain coins: each community issues FIXED 10 million coins, through which members make uncensored trades and ads to build an **economy**.
 - Parallelism: support millions of community blockchains **independent** from TAU.

Discovering community wealth through coins circulation

- Any group of digitally connected people has value.
- Non-inflatable crypto-coins will discover this potential.
- The more members join, the higher coin value is.
- When a commonwealth created, better content and service evolve.

TAU enables a server-less, permission-less, high scaling, mobile mining parallel blockchains technology through following building blocks.

- TAU Distributed Hash Table, evolves from libtorrent
- Proof of Transaction(POT) as blockchain consensus
- Full mobile device mining and networking
- Parallel chains to support unlimited scaling
- $O(\log N)$ level searching algorithm through hash-link and skip-list.

Team and privacy

Due to nature of the innovation, we do not disclose team members.

- Technology skills
 - Data and cryptographic processing
 - Telecom and mobile phone expertise
 - Blockchain consensus and algorithm research
 - Java, c++ and android dev
- Business experiences
 - NYSE and Nasdaq listed tech firm co-founder
 - Committed long term mindset
 - 50 global telegram groups administrators with quarter million users registration
- All source code is open and free, except for the ONE TAU genesis secreete key.
