TAU

a server-less messenger for full freedom of communication

#Open Source
#blockchain #dht #messenger #mobile-mining #server-less #unblock-able #uncensored #permission-less #p2c #pot #decentralized

The problem: "Big Techs" control communication, so they can …

- Over-taxing on wealth generated from digital society

- Restricting free economy by KYC and content control

TAU rebellion

- Permission-less: smart phones form up swarm network, independent from any central to give **uncensored** communication.

- Equality: enable millions of digital communities **independent** from TAU.

- Without "big-tech": all digital wealth **goes back** to community members.

Discovering community wealth through blockchain coins

- Each community issues FIXED amount of coins, through which members make trades and news to build an **economy**.

    - A group of digitally connected people has value.

    - Non-inflatable crypto-coins will discover this potential.

    - The more members join, the higher coin value is.

    - When a commonwealth created, better content and service always evolve.

TAU is a server-less, permission-less, high scaling, mobile mining parallel blockchains technology on these proven building blocks.

- TAU Distributed Hash Table, evolves from libtorrent

- Proof of Transaction(POT) blockchain consensus bring rewards and prevent spam

- Full mobile device mining and swarm networking

- Parallel chains to support unlimited scaling, from bitcoin and ethereum

- O(LogN) level searching algorithm on skip-list.

- DAG provides high immutable and immalleable security.

- Progressive image and video format stored in DAG like Git.

Team

Due to nature of the innovation, we do not disclose team members.

- Technology skills

  - Data and cryptographic processing

  - Telecom and mobile phone expertise

  - Blockchain consensus and algorithm research

  - Java, c++ and android dev

- Business experiences

  - NYSE and Nasdaq listed tech firm co-founder

  - Committed long term mindset

  - 50 global telegram groups administrators with quarter million users registration

- All source code is open and free, except for the ONE TAU genesis secrete key.
