TAU, a server-less messenger

Open source project removes monopoly over digital community.

#blockchain #dht #messenger #mobile-mining #server-less #unblock-able #uncensored #permission-less #p2c #pot #decentralized

The problem: "Big Techs" monopoly digital community. Only free access to information and opportunities will remove the global poverty.

- Over-taxing on profits generated in digital economy

- Controlling the information and accounts

- Abusing the deletion power over individuals' content

The rebellion: a server-less messenger begins freedom of information and fair compensation to work and passion.

- "Like" Telegram or WhatsApp with a *bit* more …

  - Blockchain coins: each community issues FIXED 10 million coins, through which members make uncensored trades and ads to form an **economy**.

  - Server-less and permission-less platform: phones form up digital network independent from any central to provide **free** communication.

  - Parallelism: millions of community blockchains **independent** from TAU.

Each community has value.

Discovering social value through coins circulation

- Any group of digitally connected people has value.

- Non-inflatable crypto-coins will discover such potential through exchange.

- The more members join, the higher coin value is.

- When a commonwealth created, better content and service evolves.

TAU enables a server-less, permission-less, high scaling, mobile mining parallel blockchains technology through following building blocks.

- TAU Distributed Hash Table

- Proof of Transaction(POT) as blockchain consensus to regulate spam and hacking

- Full mobile device mining and networking

- O(LogN) level searching algorithm through hash-link and skip-list.

Team and privacy

Due to nature of the innovation, we do not disclose team members.

- Technology skills

  - Data and cryptographic processing

  - Telecom and mobile phone expertise

  - Blockchain consensus and algorithm research

  - Java, c++ and android dev

- Business experiences

  - NYSE and Nasdaq listed technology companies founder

  - Committed long term mindset

  - 50 global telegram groups administrators with quarter million users registration

- All source code is open and free, except for the ONE TAU genesis secrete key.
